

REALM CONSTRUCTION IS THANKFUL.

Our clients top the list of things we are grateful for in 2021. Not only have we survived this year with its many challenges and difficulties, but Realm Construction has thrived. Our company was careful to avoid COVID infections among our ranks so we could continue working hard to support your needs and continue supporting our families. Without your faith in us to remain healthy, we might have been forced to close and furlough our people.

*Thank you for trusting us.
Thank you for the opportunity to work.*

We are thankful for our diverse team of experienced craftworkers who lent Realm their extraordinary talent and dedicated work. Without them, Realm is just a warehouse full of tools and materials.

We are grateful for our suppliers who did everything humanly possible to keep materials flowing to our projects. When manufacturing and transportation systems slowed or even quit, they found a way in the midst of disease, regulations and fear.

We are thankful that we can work in a nation that is still free and a place that rewards hard work, investment and dependability. May that ever be so.

We are grateful that our people are completing another year without a single injury in an industry known for difficult and often hazardous conditions. We understand that workplace safety doesn't just happen - it's the result of our team looking out for each other every day.

We are blessed as well to be able to openly reflect our philosophies and faith in our daily work. We acknowledge that all we are and have comes not from us, but from our Creator.

Thank you.

Bill Receveur, CEO
Rich Banks, President
